

One conversation with counsel unlocks two protected datasets – done right, on the library's terms.

THE HORIZON

One catalog shared between libraries – your data, peer to peer.

Hoopla on the lake, the shared county lookup everywhere, and richer facets for browsing.

[rayvoelker.github.io/2026-06/
issue_4_roadmap/](https://rayvoelker.github.io/2026-06/issue_4_roadmap/)

Our own node, work identity, encrypted customer data – built, just gated.

IN FLIGHT

Catalog, circulation, Libby, reading lists, and reading levels – all flowing in on a schedule, every day.
